ANDRE SAPUTRA

ELECTRONICS AND TELECOMMUNICATION ENGINEERING GRADUATE

Jakarta Selatan, DKI Jakarta | andresaputra07012019@gmail.com | www.linkedin.com/in/andre-sptr

Electronics and Telecommunication Engineering graduate from Politeknik Caltex Riau with experience in networking, telecommunications operations, data automation, and Internet of Things (IoT). Currently supports radio trunking operations at PT Nexcom Indonesia, including radio configuration, license registration and activation, and Radio Base Station (RBS) maintenance. Skilled in operational data management, SLA and KPI monitoring, automation for data processing, and network troubleshooting. Holds certifications issued by Kemnaker RI, BNSP, and Cisco.

AREA OF EXPERTISE

Network Configuration	Telecommunications Operations	Data Automation & Reporting
Routing & Switching	SLA & KPI Monitoring	IoT Development

PROFESSIONAL EXPERIENCE

Engineer - PT Nexcom Indonesia, Jakarta Selatan **Jul 2026 - Present**

- Support radio configuration for Motorola Capacity Max radio trunking systems.
- Assist with Radio Base Station (RBS) site maintenance and equipment checks.
- Undergo technical onboarding and mentoring in radio installation and site deployment procedures.

Admin - PT Telkom Infrastruktur Indonesia (Outsource), Pekanbaru **Jan - Jun 2026**

- Managed operational data and prepared work permits to support field activities.
- Monitored SLA compliance and KPI achievement to support timely operational execution.
- Developed an automation bot to streamline routine data processing and reporting.

Informatics Teacher - MAN Insan Cendekia Siak, Siak **Jan - Dec 2025**

- Delivered Informatics lessons and developed learning materials for students.
- Mentored IT extracurricular activities in coding, robotics, and multimedia.
- Coached the student robotics team for technology competitions and events.

Intern - PT PLN Icon Plus, Batam **Mar - Jul 2024**

- Assisted with on-site installation, configuration, and troubleshooting of network infrastructure.
- Supported the deployment and maintenance of network solutions for clients.
- Prepared operational data recaps and field activity documentation.

PROJECTS

SiTiket - Network Fault Ticket Management System **Feb - Jun 2026**

PT Telkom Infrastruktur Indonesia

- Developed a web based fault ticket management system to track, manage, and follow up network disturbance tickets.

Automated WhatsApp Bot for Daily Fault Ticket Recap **Jan - Feb 2026**

PT Telkom Infrastruktur Indonesia

- Developed an automated WhatsApp bot to extract daily fault ticket data, populate spreadsheets, and capture required screenshots for operational reporting.

FireSense - Real Time Fire Monitoring Application **Jan - Jul 2025**

Politeknik Caltex Riau

- Designed and developed a real-time fire detection and monitoring application to support early warning systems.

AET AI PCR - AI Powered Information Platform **Sep - Oct 2025**

Politeknik Caltex Riau

- Developed an AI powered web platform that streamlined information access and automated responses for the AET Student Association.

Fiscal AI Finance - AI Powered Financial Tracking Web App **Jul - Sep 2025**

Personal Project

- Developed a web based personal finance application that leverages AI to automate expense categorization and support financial data analysis.

EDUCATION

Bachelor of Applied Engineering in Electronics and Telecommunication **Oct 2021 - Oct 2025**

Politeknik Caltex Riau — GPA: 3.67/4.00

- Relevant Coursework: Networking, Telecommunications, Electronics, Embedded Systems, and Machine Learning.

ACTIVITIES

Research Mentor - POSI CREATION 2026 **Oct 2025 - Feb 2026**

MAN Insan Cendekia Siak

- Mentored a student research team in developing a research paper on AI applications in finance for the POSI CREATION 2026 competition.

CERTIFICATIONS

- Working at Heights Level 1 – Kemnaker RI (2026)
- Intermediate Computer Network Technician – BNSP (2025)
- TOEIC (Score: 690) – LTI Pekanbaru (2025)
- CCNAv7: Switching, Routing, and Wireless Essentials – Cisco (2023)
- CCNAv7: Introduction to Networks – Cisco (2023)

SKILLS AND INTERESTS

TECHNICAL

- Networking & Telecommunications: Network Configuration & Troubleshooting, Routing & Switching, Radio Trunking Operations.
- Operations & Automation: Operational Data Management, SLA & KPI Monitoring, Data Automation, Bot Development.
- IoT & Embedded Systems: Arduino, ESP32, Raspberry Pi, MQTT.
- Programming & Web Development: Python, TypeScript, C/C++, PHP, CI, Laravel, Node.js.
- Tools: Microsoft Office, MATLAB, Arduino IDE, Visual Studio Code.

INTERESTS

Networking, Telecommunications, Radio Trunking Systems, Internet of Things (IoT), and Embedded Systems.

ADDITIONAL INFORMATION

- Languages: Bahasa Indonesia (Native), English (Intermediate).
- Soft Skills: Operational coordination, data management, problem solving, and communication.
- Phone : +62 823 8702 5429
